If you are going to be away, let us know and we can donate your share to a local food bank. That way, your investment doesn't get wasted. You can use it to benefit others.

I understand that my purchase is eligible for a refund only if I move out of the area or if I experience a personal/financial hardship. Refunds will be prorated. I understand that refunds for reasons of personal preference will impose a hardship on my farmer who has already incurred time and expenses on my behalf. If I wish to cancel for personal preference reasons, I agree to try and recruit a replacement member. The farm will grant refund requests for personal reasons on a discretionary basis.

I understand that my purchase indicates agreement with some shared risk. If, due to weather, insects, or other event beyond the farm's control, total share volume will be reduced by half or more over the remainder of the season, I will receive a refund, prorated as to the remainder of the season. I agree that if uncontrollable events reduce the total volume of the produce I would otherwise receive by up to 50%, that I will share in this loss.

I understand that if the season is especially abundant, I may be given the opportunity to pick certain excess products myself. I know that this offering will be made on specific dates and times, as announced by the farm via email, and that accommodations for specific schedules cannot be made.

I understand that I must pick up my CSA share from the above location at the time I have selected and that if I do not do so, my share may be picked up at the farm on Wednesday between 9am – 5pm. If not picked up my share may be donated to a family in need or the local food pantry.

I understand that important communications from the farm will be delivered via email and that opening these emails is my responsibility.

We know that everyone has different tastes. Let us know those crops you prefer not to have and those you would like to see us grow. We can only switch one crop per week. If you would like to purchase additional quantities of any crop let us know.
